1. Submit Screw Vacuum Head Application Form

Please fill out the application form with as much detail as possible. Every product is manufactured to meet the customer's individual requirements. After receiving an application form, we will confirm and discuss details if necessary (via email, Microsoft teams meetings, etc.).

2. Provide quote and exterior drawings

We will provide a quote and exterior drawings which will take about 2 weeks.

3. Ordering

After receiving an order, it will take approximately 35 days to manufacture the product.

4. Product testing

In house testing of the suction level and accuracy with 5 target screws. If the target screw is unique, we will need to borrow 5 for testing.

5. Shipping

It will be shipped in a secure cardboard box.

6. After-sales follow up

Warranty is guaranteed for 1 year after shipment. Please download the instruction manual and maintenance materials from our website (https://sawahb.com/download). Please check the card included with the product for the download password.
